

Northpark
PRIVATE HOSPITAL

Emergency Department

The Official Opening

Northpark Private Hospital is pleased to announce that on 21st November 2016, a new state of the art Emergency Department will be opened, providing a 24 hour a day, 7 days a week emergency service.

The Emergency Department will provide:

- Experienced Emergency Doctors and Nursing Staff available 24 hour a day, 7 days a week, including on-call specialist, physicians and surgeons
- On-site Radiology and Pathology
- Rapid Assessment
- 6 Acute Bays and Resuscitation Bay.

The inclusion of the ED is important for Northpark Private. The Northern Corridor is recognised as one of the largest growth areas in Victoria with increasing demand being placed on our local health services. Northpark Private's Emergency Department will greatly assist in relieving the strain on the local public health system and Metropolitan Ambulance Service. Local residents will be provided with a dedicated facility which will provide emergency medical attention close to home.

In addition to the new Emergency Department, Northpark Private will also be officially opening the new HDU (High Dependency Unit).

I would be happy to be contacted for any enquiries.
Kind regards,

Simon Keating
General Manager – Northpark Private Hospital
